

R&P 3.14.5.2. Cooperative Undergraduate Education

Title: Cooperative Undergraduate Education

Presently in R and P:

3.14.5.2. Cooperative Undergraduate Education

Certain departments offer limited opportunities to undergraduate students for cooperative work assignments with industrial or business firms and government agencies. In all cases cooperative work assignments are optional on the part of the student and there is no obligation for the student to accept permanent employment or for the cooperating organization to offer permanent employment.

When on a cooperative assignment, the student must register for the non-credit course, cooperative education, to maintain continuous student status. The fee for this course is established by the university treasurer. Participation in a cooperative education program does not relieve the student from any regular requirement for the academic curriculum in which he or she is enrolled.

Details of cooperative arrangements vary with different curricula. Each department offering cooperative education will provide the details of its program in writing to interested students.

Suggested change:

Eliminate this section from R&P.

Rationale: The entire Cooperative Undergraduate Education program is presently under review. Since details vary from college to college, each college should outline the details of their programs in the university catalog.

Decision: Ed Pol-voted to remove this section altogether.
